

Creative Kids Inclusive Nature Class now being offered!

Moreau Lake is excited to announce that we are offering new classes specially designed for children and families who have an IEP, (Individualized Education Plan). Our park educator, Rebecca Mullins, has partnered with a local special education teacher, Melissa Woods. Together they are offering nature classes which are specially designed to nurture the children's individual strengths while offering a fun lesson based on the natural world around us. Rebecca is very proud to offer these new classes and is determined to work with each family and child so that she can offer the best learning environment for the students.

Each class is approximately 1 hour with a lesson at the beginning. The lesson is 15-20 minutes in length followed by a craft, hike or activity. Classes are offered on the first and third Tuesday of each month at 4:30pm. We ask that parents sign their children up in advance so that we can prepare for the class to our highest level. Families and siblings are welcome, and one adult need to attend each class with the child.

Please contact Rebecca 518-793-0511 with any questions and to sign up for classes. Our next class will be offered on **November 15 @4:30pm**
